Blessed G/Michael Catholic Secondary School

1st Semester English Test One for Grade 10th

Oct, 2018 E.C

Time Allowed: 45 min.

Name: B?tanya Sec: 10th B R.No. 12

PART I: Reading Passage

Directions: Read the passage below and answer the questions that follow.

Wilbur and Orville Wright were the actual inventors of the world's first practical powered aeroplane.This is a fact that is accepted by all aeronautical historians without any doubt. The Wright brothers were from Dayton, Ohio, the United States.

The Wright's succeeded in their invention because they did not make the mistake common to many of their predecessors who had attempted powered flight without first learning to fly. The Wright brothers made their first tests on kites between 1899 and 1900. Then, in 1900, they used tethered glides. Finally, they tested it on glides in free flight 1901 to 1902. In 1903, they were ready to attempt powered, man carrying, controlled flight only after they had become airmen in the true sense of the word.

Before the Wright's, there had been researches done on making powered aeroplane fly. However, these experiments were with little success. Wilbur summarized the reasons for the failure as follows: 1) The difficulties relating to the construction of sustaining wings, 2) The difficulties relating to the generation (production) and application of the power required to drive the machine through the air, 3) The difficulties relating to the balance of and steering of the machine after it is actually in flight.

Although Wilbur did not deny that some progress had already been made to resolve the difficulties in items 1 and 2 above, it had not been effective enough to settle the problems in item 3. He made it clear that once the difficulties in item 3 were removed, **all the other difficulties are of minor importance**.

To find out the solutions to all the three problems above, the Wright brothers did their research carefully and systematically for a long period of time. However, in the end, the reason for their success was what they worked on **resolving** the interrelated problems of flight stability and control.

At the time when the Wright's were carrying out the research and development in making their aeroplane fly, they had hardly any technical resources to use. Today's thousands of textbooks on aerodynamics, structural and power plant data and the computers containing millions of bits of information were not available then. The Wright brothers had to carry on their research by testing every wing and propeller shape ; first, by mounting crude measuring devices on the handlebars of a moving bicycle; later, in wind tunnel of their own construction. They recorded, tabulated (arranged), and applied these data. But it was on stability and controlled research that **they** concentrated their greatest effort.

13. Laurel and Smith were a pair of comedy actors _____ made over 100 films from 1926 to 1940.

A. who B. when C. whose D. whom

14. I am _____ a swimmer as my sister.

A. better B. good as C. not as good D. good

15. Everyone liked the hotel; _____, no one was able to pay the required price.

A. but B. therefore C. however D. moreover

16. One of the most dominant casualties is a severe environmental **degradation** which is responsible for the prevalence of poverty and famine. The meaning of **degradation** is:

A. the state of being destroyed B. making worse C. considerable D. substantial

17. When generals think that victory at war front is difficult, they order their soldiers to **fall back.** The meaning of the underlined phrasal verb is:

A. frustrate B. up set C. fight D. retreat

18. It is raining, and I don't want to get my dress wet. I _____ an umbrella.

A. had better not bring B. had better to bring C. had better bring D. ought bring

19. We arrived school late _____ we had engine problem.

A. as B. due to C. because of D. on account of

20. If you want to pass the entrance exam successfully, I suggest _____ this book between lines.

A. to read B. read C. reading D. to be read

21. When he arrived in the morning, we had started work. The equivalent meaning of this sentence is:

A. We started work after he arrived. B. We started work before he arrived.

C. We were waiting him until he arrived. D. We waited him and started work at the same time.

PART III

Directions IV. Choose the best answer that is most appropriate to complete the dialogue.

22. **Marta**: I 'm so confused. I don't know what to do.

Helen: _____

A. Take it free C. Take it easy

B. Take it relax D. Take it light

23. **Father**: I am not feeling well today.

Son: _____

A. Doctors are not doing their work.

B. Hospitals are so busy.

C. What about the new hospital?

D. May be, you will need a rest

B 24. **Abebe:** Senait is a very intelligent girl.

Tadesse: _____.

A. Her boyfriend is an engineer
B. Well, I am not too sure about that.
C. She lives next door to my brother.
D. I have also seen her at the supermarket.

A 25. **Teacher**: Why do you like your sister?

Student: _____

A. She is a smart girl.
B. She is still at school.
C. She is my favorite.
D. She is not old enough for marriage.

A 26. **Kider**: What was the party like?

Lidiya: _____

A. I think, it was ok.
B. Do you think people like it?
C. It started earlier, didn't it
D. About a thousand people were invited.

complex = 1 independent 1 or more dependen

Directions V. Read the following sentences and identify each sentence type based on structure.

FANBOYS

27. Even if she is a devoted Muslim religion follower, her social life with Christians is surprisingly a model for others. ---Complex---

independent dependent

28. Today they didn't go out of the campus to visit the sides of River Baro, for they are busy with their assignments. ---Compound---

b/c

29. I bought coca cola, and I drank it at once since I was very thirsty ---Compound complex---

30. They are known in the campus for their good manners. ---Simple Complex---

independent b/c dependent

English Answer Sheet G. 10 **Time allotted: 45'**

Name Bitanya Wondemagegnehu Sec. 10thB No. 12

1. false	11. C	21. B
2. false	12. D	22. C
3. True	13. A	23. D
4. D	14. C	24. B
5. A	15. C	25. A
6. D A	16. B A	26. A
7. B	17. D	27. Complex
8. D	18. C	28. Compound
9. C	19. A	29. Compound complex
10. B	20. B	30. Complex ~~Complex~~ Simple
