Blessed G/Michael Catholic Secondary School

1st Semester Geography mid one test for Grade 10th

NOV., 2018 E.C

Time Allowed 35 min'

Name Bitanya Wondmagegnehu Section 10thB No 12

I. *If the statement is correct say "True" If the statement is incorrect say "False"*

True 1. Landforms are physical features on the Earth's surface that form terrain of an area.

True 2. The largest island in the world is Greenland. Australia is bigger than Greenland but it is so big that it is called a continent instead of an island.

True 3. Plains are large areas of flat low land with no hills or mountains in them.

True 4. Africa covers 6% of the Earth's total surface area and 20% of its land area.

True 5. The Sahara Desert has enormous quantities of reddish sand dune that is weathered from sandstone.

II. Choose the best answer among the given alternatives.

A 1. Much of Africa experiences tropical climates because

A. Almost 75% of the continent's total area is found within the tropics

B. The land area north of the equator is about twice that of the south

C. Africa's north-south and east-west extents are almost equal

D. Africa is the second largest continent

A 2. The extreme point that lies at the tip of Northern Africa is

A. Cape Bon B. Guarduffi C. Agulhas D. Cape Verde

B 3. Africa is located between $37^0 52`N$ and $34^0 52`S$ latitudes. This expression is a best example of

A. relative location B. Astronomical location C. Geological location D. local location

C 4. Which continent is crossed by all equator, prime meridian, tropic of cancer and Tropic of Capricorn?

A. Asia B. Europe C. Africa D. North America

C 5. A day today change in temperature, rainfall and humidity is known as_____.

A. climate B. sunny day C. weather D. cloud cover day

D 6. Which of the following statements is wrong about the climate of equatorial rainforest region?

A. high annual mean temperature C. high sun angle

B. high annual rainfall D. high annual range temperature

A 7. Among the following African countries which country is not found within the Sahel region?

A. Ethiopia B. Sudan C. Chad D. Tunisia

D 8. Why Africa experiences the hottest climate in the world

A. due to the large size of the continent C. because Africa has many basins & plateaus

B. longitudinal location of the continent D. latitudinal location of the continent

B 9. What imaginary line divides the Earth into the Northern and Southern Hemispheres?

A. Prime Meridian B. Equator C. Tropic of Cancer D. International Date Line

C B

C 10. Which climate zone in Africa is best described as having consistently high temperatures and distinct wet and dry seasons?

A. Desert climate B. Tropical Savanna climate C. Equatorial climate D. Highland climate

B 11. Which atmospheric pressure belts most significantly affect the climate of regions located roughly between 5°N and 5°S latitude in Africa?

A. Polar High Pressure Belt
C. Subpolar Low Pressure Belt
B. Equatorial Low Pressure Belt
D. Subtropical High Pressure Belt

C 12. Why is the Köppen climate classification system more widely used in geography than the climate classifications developed by the ancient Greeks?

A. the Koppen system considers the distribution of water bodies
B. It is based on temperature and sunshine distribution
C. It considers the average temperature and precipitation
D. Its climatic region is within latitudinal boundaries

C 13. Which of the following is a major type of landform?

A. Hills B. Gorges C. Mountains D. Valleys

C 14. A narrow strip of land connecting two larger landmasses is:

A. A peninsula B. An island C. An isthmus D.A basin

D 15 what is the major cause of Mountain Formation?

A. Wind erosion B River action C. Glacial deposition D Tectonic plates colliding

C 16. A flat and high land that may have been created due to volcanic activity is:

A. Plain B. Mountain C. Plateaus D. Gorge

D 17. Africa's location is described as divided into half by:

A. The Tropic of cancer C. The Greenwich Meridian
B. The Tropic of Capricorn D. The Equator

B 18. Which region does the Atlas Mountain cover in Africa?

A. East Africa B. North Africa C. Southern Africa D. Western Africa

B 19. What is the vast sand dunes are in the Sahara deserts are called?

A. reg B. erg C. dune D. plateau

D 20. Which one of the following represents Tropical Zones?

A. Between tropics and poles C. From the equator up to the Arctic Circle
B. The subtropics D. From 0° to 23.5° latitudes

A 21. Which one of the following is experienced near the equator?

A. Warm, wet all year B. Dry in winter C. Cold in summers D. Long cold period

D 22. In Mediterranean climate zones, when do most of rain falls?

A. Spring B. Summer C. Autumn D. Winter

C 23. Which climate is the warm temperate western margin climate?

A. Tropical monsoon C Mediterranean climate
B. Humid Subtropical D. Equatorial Climate

D 24. The Mediterranean region of Africa is located

A. North and South tip B. East and South tip C. West and North tip D. South and West tip

C 25. Hot desert area of Africa the annual amount of rainfall is

A. Less than 500 mm B. less than 750 mm C. Less than 250 mm D. Less than 150mm
