Blessed G/Michael Catholic Secondary School

2nd Semester Geography test one for Grade 10th

March, 2018 E.C Time Allowed 50'

Name: Bitanya Wodimagegnehu **Sec:** 10th B **R. No.** 12

I. Choose the best answer the among the given alternatives.

Answer the equation 1-6 based on the demographic date below.

Descriptions	Population data
Total population	10,000, 000
Total deaths	18000
Young population	1,000,000
Total live births	45000
Death below 1 year	2,000
Old age population	1,000,000
Total land area	500,000 km^2

B 1. What is age dependency ratio (ADR) of the region?

A. 10% B. 20% C. 15% D. 25%

D 2. What is the crude birth rate (CBR) in the region?

A. 1.2/1000 B. 3.2/1000 C. 2.7/1000 D. 4.5/1000

C 3. What is the Infant mortality rate (IMR) of the region?

A. 55/1000 B. 66.4/1000 C. 44.4/1000 D. 12/1000

B 4. What is the crude population density of the region?

A. 20 persons/km^2 B. 200 persons/km^2 C. 30 persons/km^2 D. 300 persons/km^2

B 5. What is the percentage of economically active population of the region?

A. 41.64% B. 80% C. 50% D. 65%

A 6. What is the crude birth rate (CBR) of the region?

A. 1.8/1000 B. 2.4/1000 C. 2.8/1000 D. 1.2/1000

+A 7. What measure would you create to effectively control rapid population growth in an over populated region?

A. Providing incentives for larger families C. Ignoring family planning programs

B. Promoting comprehensive sex education D. Discouraging the use of contraceptive

C 8. The data showing the proportional number of male with respect to female are measured with which technique

A. Death rates B. Growth rates C. Sex ratios D. Birth rates

D 9. Population Pyramid with a broad base usually show what pattern of population growth?

A. Slow population growth C .Zero rate in birth rates

B. High percentage of aged population D. Rapid rate in population growth.

D 10. What best describes African sex structures with regard to total population?

A. A large number of male and less numbers of female population.

B. Low dependency rate in the working population age category.

C. More percentage of children and lesser percentage of aged persons.

D Almost a balanced rate in males and females.

C 11. What can we infer from a large numbers of young people and smaller numbers of old age populations of a country in relation to population structure?

A Having aging population structure

B. High life span but lower growth rates

C. High dependency rate in its population structure.

D A better life expectancy in average

B 12. What is population doubling time of the country which its population grows at 2 percent annually?

A. 15 B. 35 years C. 70 years D.7 years

B 13. A demographic variable which results as a decreasing factor for the number of people?

A. Immigration B. Mortality C. Fertility D. birth

D 14. Africa stands with what rate in global population next to which continent?

A. Second Next to Europe C. Second next to south America

B. Second next to north America D. Second next to Asia

D 15. What has led Africa to have faster population growth in the world?

A. Increased mortality rates. B. Increased emigration to outside.

C. Short life span and decreased mortality rate. D. high fertility rates.

B 16. The population pyramid of all countries is the same, except

A. Ethiopia B. Italy C. Tanzania D. Kenya

D 17. All of the following describe the demographic characteristics of Africa, except

A. Low median age C. Short doubling time

B. Broad base population pyramid D. Low fertility and mortality rates

A B 18. Which region of Africa has relatively low rate of natural increases?

A. Northern Africa B. Central Africa C. Eastern Africa D. Western Africa

A 19. Since 1939-1945, Africa's death rate has been declining because of:

A. The development of medical technology C. The presence of tropical disease

B. Poor sanitary practice D. Civil war and political instability

A 20. Which country relatively shows better life–expectancy

A. Morocco B. Gambia C. Gabon D. Guinea

B D 21. One of the following regions the one that is characterized by long doubling time?

A. Asia B. North America C. Africa D. South America

A 22. Africa's fertility rate is the highest in the world due to all of the following factors, except

A. High incidence of disease and infection C. Influences from many religions

B. Low educational background of the people D. Low status of women

C 23. 3Which one of the following is considered to have the highest crude density in Africa?

A. Central Africa B. Southern Africa C. Eastern Africa D. Northern Africa

A 24. All are human factors responsible for spatial variation in the distribution of population in Africa exc

A. Fertility of soil B. Economic factors C. Social factors D. Political situations

B 25. One of the following is false about the population of Africa.

A. It is the most urbanized of the world

B. It has the shortest life expectancy in the world

C. It has the highest birth rate and death rate in the world

D. Nearly half of its total population is under age15

D 26. All are the most densely population regions of Africa, except

A. Mauritius B. Nile valley of Egypt C. Rwanda D. Cameroon

A 27, What proportion of world total population Africa constitute?

A. 14.7% B. 21.3% C. 30% D. 12%

D 28. Identify the country with relatively highest birth rate in Africa.

A. Nigeria B. Mauritius C. Algeria D. Republic of South Africa

C 29. Which of the following regions is the least urbanized?

A. Central Africa B. Southern Africa C. Eastern Africa D. Northern Africa

C 30. A population pyramid is a drawing graph that shows population distribution by

A. age and death rate

B. sex and birth rate

C. Sex and age group

D. growth rate and sex
