Blessed G/Michael Catholic Secondary School

1st Semester Geography mid one test for Grade 9th

NOV., 2018 E.C

Name Adiam Solomon Time Allowed 35 min'

Section 8"D No 40

**I. Match words or phrases under column 'A' with correct items of column 'B'**

| A | B |
|---|---|
| E 1. The Plateau of Tigray | A. Gamo-Konso Highlands, |
| D 2. The North Central Massif | B. Tekezze and Angereb Lowlands |
| C 3. The Plateau of Shewa | C. Mount Abbuye Meda |
| A 4. The Southwestern Highlands | D. Mount Ras Dashen |
| G 5. Mesozoic era | E. Mount Ambalage |
| F 6. Paleozoic era | F. Predominance of invertebrates |
| | G. predominance of reptiles |

**II. Choose the best answer among the given alternatives.**

C 1. Which of the following elements of geographical study is related to Demography?

A. Geomorphology B. Climatology C. Population D. Biogeography

C 2. Which sub-division of the lowlands of Ethiopia is found in the north western part of the country?

A. The Omo-Ghibe Lowlands C. The Borena Lowlands

B. The Erkele-Ogaden Lowlands D. The Tekeze-Angereb Lowlands

C 3. Which of the following physiographic divisions of Ethiopia is highly affected by volcanic eruption and earthquake?

A. Highlands B. Lowlands C. Rift Valley D. Plateau

B 4. _____ and _____ are the highest and lowest places in Ethiopia respectively.

A. Batu and Pendaho C. Ras Dashen and Qatta

B. Ras Dashen and Dallol D. Batu and Ogaden

B 5. Which one of the following combinations of mountains and highlands of Ethiopia is NOT CORRECT?

A. Gara muleta → The Plateau of Tigray C. Abbuye Meda → The Plateau of Shewa

B. Assimba → The Bale Massif D. Kolo →The North Central Massif

B 6. Which plateau serves as water shed between Awash & Abay river basins?

A. Mt of Tigray B. Mt of Southwestern C. Mt of Shewa D. Mt of Central massifs

D 7. The great east African rift-valley extends from _____ to _____.

A. China to Mozambique C. Turkey to Tanzania

B. Syria to Chewbahir D. Syria to Mozambique

B 8. Geologically, which area is the most unstable part of Ethiopia?

A. the North western high land C. the North central massifs

B. the rift valley D. the Abay gorge

C 9. Which part of the Geosphere is termed as rock (solid) layer of the earth

A. Biosphere B. atmosphere C. lithosphere D. Hydrosphere

B 10. Dinosaurs disappeared from the earth during the

A. Early of Mesozoic B. end of Mesozoic C. Early of Cenozoic D. end of Paleozoic

A 11. Series trapping lava and volcanic eruptions were common during

A. Mesozoic era B. Precambrian era C. Cenozoic era D. Paleozoic era

C 12. Which of the following is not endogenic (internal) force?

A. volcanism B. faulting C. erosion D. folding

B 13 Upper sand stone of Ethiopia was deposited during the ____ period.

A. Triassic B. cretaceous C. Jurassic D. quaternary

B 14. The extreme point that lies at the western tip of Ethiopia is

A. Ogaden B. Akobo C. Moyale D. Badime

C 15. Which neighboring country shares the longest boundary line with Ethiopia?

A. Eritrea B. Djibouti C. Somalia D. Sudan

A 16. The most overlying Mesozoic rock in Ethiopia is

A. Hintalo lime stone B. upper sand stone C. Adigrat sand stone D. basement complex

A 17. Among the following field of physical geography which one studies about the forces that changes the land forms

A. Geomorphology B. Soil geography C. Climatology D. Ocean geography

C 18. The present land forms of Ethiopia mainly resulted from the geologic events of

A. The Paleozoic era C. Tertiary and quaternary periods

B. the Precambrian era D. The Jurassic and Triassic periods

C 19. Which areas of the following highlands of Ethiopia are the wettest?

A. the bale massifs C. the south western highlands

B. the shewan plateaus D. the North central massifs

B 20. What makes Ethiopia "the roof of North–Eastern" Africa?

A. its compact shape C. its large proportion of Arable land

B. its large proportion of highlands D. tis large proportion of rivers

D 21. As Adigrat sandstone is to Triassic period, then Hintalo lime stone is to

A. quaternary period B. Cretaceous period C. Tertiary period D. Jurassic period

B 22. Which geological era is known as an era of amphibians?

A Cenozoic B. Mesozoic C. Paleozoic D. Precambrian

B 23. One can associate the Cenozoic era with the formation of

A. metamorphic rock B. sedimentary rock C. Changed rock D. Igneous rock

B 24. The plateau of Tigray is separated from the plateaus of Eritrea by

A. Abbay River B. Mereb River C. Genale River D. Tekeze River

A 25. Which of the fowling statements is correct about the great east African Rift Valley?

A. It extends from Syria to Mozambique. C. It is the second largest in the world

B. It is formed as a result of folding D. All Ethiopia lakes are found in the rift -Valley
